

## BECKMAN PRODUCTION SERVICES JOINS FORCES WITH SCF

*SCF Broadens services exposure by partnering with Beckman, a production services company*

Houston, TX, August 2012 – SCF Partners is pleased to announce its partnership and investment in Beckman Production Services (“Beckman”). Beckman provides comprehensive well services, operating a fleet of nearly 100 workover and completion rigs, with additional services including swabbing units, hot oilers, high pressure pump trucks, anchor setting trucks, vacuum trucks, crude oil trucks and tankers licensed to haul non-hazardous liquid waste and crude oil.

Beckman, established in 1970, is headquartered in Kalkaska, Michigan, with significant operations in Wyoming, North Dakota, Pennsylvania, Oklahoma, and Montana. The company has operations performed through three subsidiaries, R&S, J&R, & SJL, which provide ongoing production services throughout the country’s longstanding producing assets and is well positioned in the Bakken, Niobrara, Marcellus/Utica and Mississippian Lime markets.

“SCF is pleased to have found such a great management team to partner with in Beckman. We look forward to working together in the continuing growth of Beckman and the expansion of additional geographies and production services lines,” said David Baldwin, Managing Director at SCF Partners.

Danny Cagle, President & CEO of Beckman commented, “Our team is excited to partner with SCF and the development opportunities that the new relationship presents. We are proud of the company and what we have built in the last 40+ years and look forward to what the future holds.”
